

# FRIDAY FLYER

13 March 2020

## UPCOMING DATES

### Moment of the Week:

This week Small Blue Class have conducted a science investigation where we explored the effects of gravity. "We had to drop paint at the top and see what happens, did you know it always goes down and that's because of gravity" Ralf. Calum explained to the class that on the moon there is less gravity so things are slower to fall back down.
