

Four-Figure Grid References

Using the 2 digits of the easting and the 2 digits of the northing creates a four-figure grid reference. This is the reference for the bottom left corner of a square on the map. This makes it easier to search the map for features.

Remember! Always start with the eastings first (try using the phrase 'along the corridor and up the stairs' to get the right order).

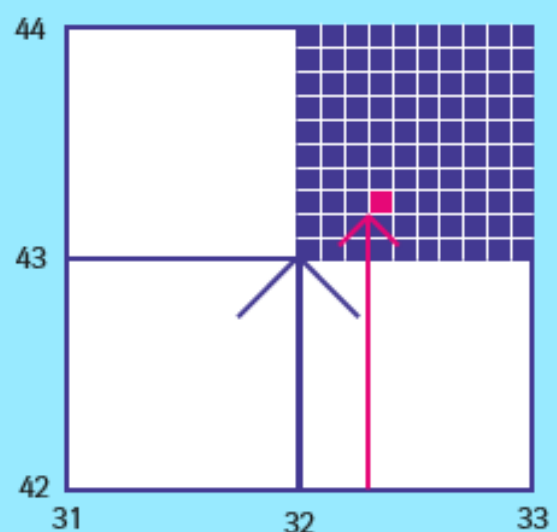

(32,43)

Six-Figure Grid References

We can make our references even more precise by adding an extra number to both the easting and northing. This helps us to work out whereabouts in the square the feature you are looking for is.

Just imagine each square is actually a 10x10 grid. So if the feature is half way then the extra number will be 5!

This extra number helps to pinpoint a resource to a place within 100m on the map!

Geography Task

Find the six-figure grid references on the map and record the place that is found there. Be aware, it may be the name of a road.

What place is found at the following coordinates?

(121, 209)	-○- - -
(132, 223)	- - - - - ○ - - - -
(125, 225)	- - ○ - - - - - - -
(129, 218)	- - - - ○ -
(120, 225)	- - - - - ○ - - - - ○ - - - -
(136, 227)	- - ○ - - - -
(125, 217)	○ - - - - - - - - - - ○ - - - - -
(138, 209)	- - - - - - - - - - ○ -
