

## Potion of Immortality

Would you like to be able to live forever? You may find it useful to have a bit of help from magic – especially if you really want it to work and last for an eternity. If you would like to become immortal, read on to find out how to make this amazing, life-changing potion that can change it all.

### Ingredients

You will need the following list of ingredients and equipment to make your potion:

- A 100ml bottle of sparkling moon-water;
- 200ml of light-blue baby's tears from a muggle baby;
- A large emerald-green toad, which must have been found in the forbidden forest;
- 3 thick locks of hair from a silver unicorn (removed secretly);
- 10 toenails from a jet-black crow;
- 50ml of pure, midnight-red dragon's blood.

### Method

- Firstly, empty all of the sparkling moon-water into the jug – do this slowly because it may splash out.
- After that, slowly pour in the 200ml of a baby's tears whilst saying your name aloud (take care when completing this part as it is a crucial stage of creating the potion).
- Next, thinly slice the toad with a sharp knife and chop up the 3 locks of unicorn hair. Be careful with the knife as it could cause injury; the blade is as sharp as a piece of glass.
- After preparing the toad and the unicorn hair, put them in a jug and whisk vigorously. Only after this should you then add the midnight-red dragon's blood. Do this quickly or the mixture will curdle.
- When you have finished whisking, pour the mixture through a sieve so it is smooth.
- In order to make sure that the ingredients mix together correctly, boil it in a pan until it turns purple.
- Finally, pour it back into the jug and leave the mixture to set overnight in the fridge.
- The next day, pour the potion, which should now be ice-cold, into a large glass and drink it instantly. You may feel a little bit faint for 2-3 hours but this will pass.

Hopefully, having consumed the immortality potion, you will outlive all of your family and friends and you should never have to worry about accidentally hurting yourself when testing out a new spell. Do you want to try it?
