

RECEPTION: RHEMA

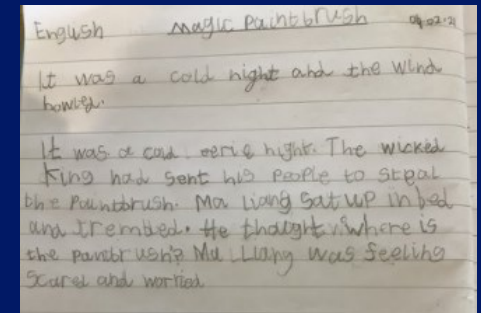

Rhema made an amazing emotions dice and she also wrote about the things she liked about herself and things she is good at.

YEAR 1: IVY

Ivy used her Duplo to represent tens and ones. She has been working really hard all week and has been very successful in her learning.

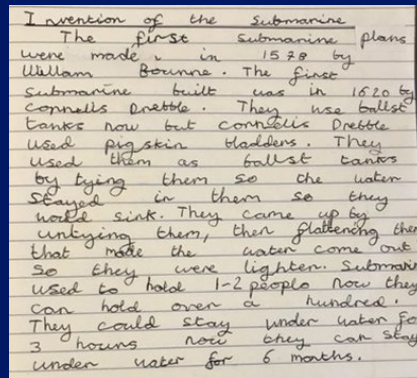

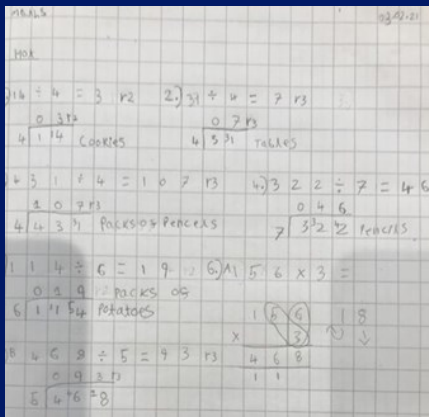

YEAR 2: LILLYANNA

Lillyanna has used exciting vocabulary to create excitement for the reader. We can't wait to see what happens next!

YEAR 3: SOPHIA

Sophia has worked hard and persevered in her maths this week, answering tricky division worded problems!

YEAR 4: FABIO

Fabio has worked incredibly hard researching and writing information about submarines. He has worked on his presentation too.

YEAR 5: OSCAR

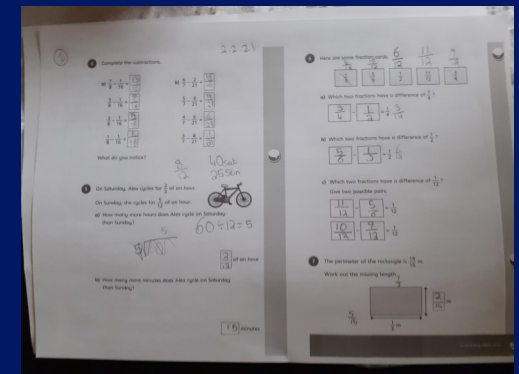

Oscar expressed his interests clearly through his writing, whilst demonstrating his aspirations for the future. Thank you for sharing this with us, Oscar!

Hi, my name is Oscar and I really like playing videogames. I have a pc and a nintendo switch. I like to play with my friend from my old school on my computer. I have a little brother who's called Brandon and sometimes afterschool we would play with each other, downstairs and upstairs.

Some of the things I have attempted are making roblox games and making mods for minecraft. I have already successfully scripted a modification into Minecraft. I still try to make games in roblox today but not many of them have been successful. But what might happen in the future is my dad's friend helping me with coding in a game, I make it, he codes it. As you can see, I am a computer kid which I get from my dad, since he owns a digital marketing company. I do sometimes like to play with my lego and whenever I build, I always start with something random and then make it quite cool like a while ago I made a mini spaceship from the pieces from a set.

My favourite game on the nintendo switch is Zelda Breath of the Wild, my dad used to always play zelda when he was younger and he saw this game on sale a few days after we got the switch and I have basically completed it except a lot of secret places, shrines and quests to complete. I always play it in the morning before school and after when, I get bored of playing roblox.

Sometimes I have chores which I help around the house with tidying up the house and helping to set the table before lunch and dinner. I used to cook food with my mum, but I don't really do it often.

YEAR 6: ORLAGH

Orlagh has been resilient in her fractions work this week, asking for support when required before working independently. Fantastic progress!
