

More About Our Governing Body Members

Alison Davis—Trust Appointed Governor

This is my second term as a Governor for MPA.

As a retired teacher (SENDCo) I value the opportunity to remain connected to the world of education and I endeavour to be supportive to all staff and pupils in this amazing school.

My own children have grown up now, but I am fortunate to have grandchildren who live nearby and attend a local Primary School. I remain passionate about giving every child the best opportunity to flourish during their school years and beyond.

Zeba Khanham—Trust Appointed Governor

I have been volunteering as a Trust Appointed Governor since November 2023.

I work as a Scientist, with my research focussing on AI and Cybersecurity. Throughout my career, I've often found myself among the few females in various professional settings. This experience has fuelled my passion to advocate for increased representation of girls in STEM subjects.

I firmly believe that fostering diversity in these fields requires encouraging every child, regardless of their background or gender, to pursue their passions and interests. It's crucial that they aren't deterred by the absence of role models. I am honoured to be part of the team at Martlesham Primary Academy that actively contributes to breaking down these barriers and promoting inclusivity in STEM education .
