Great Voucher Win

We were elated to hear in late October, that we had been successful in our competition entry for an Eco Friendly 'No Adults Allowed' miniature garden entry.

We have won a missive **£1000** of gardening vouchers that can be used in various local centres. We must say a massive thank you to last years Eco committee who took the challenge on. Garden club had finished for summer in July and I asked if they were up for the job! WELL DONE TEAM!

The Winning Entry

Spring Planting

We are looking forward to planting a new wildflower area in our wild orchard in the spring. This will attract bees and other pollinators.

Vertical Growing

Approaching winter we have decided to experiment with indoor vertical growing. This is becoming increasingly popular due to the lack of floor space needed.

We have set up our growing area made from plastic bottles and a shoe holder and we hope to grow some edible produce, that we can pass to the kitchen, during the colder months.

Garden Club Planting the Garden

And finally

Have a wonderful Christmas and a super new year.
