

Tina Takami—Parent Governor

I joined MPA as a governor in October 2024, and as a parent, it's been wonderful to watch my son flourish here over the past few years.

As a business psychologist and people strategy consultant, I lead my own consulting firm, where I work with organisations of all sizes to help them create a competitive edge through a stronger understanding, alignment, and engagement of their people. Throughout my career, I've had the privilege of collaborating with many leading global companies across various industries. One common theme I see everywhere is the importance of people feeling engaged and valued in their roles.

I am deeply passionate about helping people unlock their potential by understanding what motivates them and where they can truly thrive. I believe this journey shouldn't wait until individuals enter the workplace, it should start during their educational years. I am thrilled to contribute to the MPA community, supporting both the school and its pupils in reaching their full potential.
