Wild Schools

Wild Schools are back for another year,

Suffolk Wildlife Trust will be working with Year 4 one day per term until July. Charlie and her team will continue to help us at MPA to continue supporting the wildlife on our school grounds.

Sustainability at MPA

The Department of Education has stated that by September 2025 every school needs to have calculated their Carbon Footprint and have, in place, a plan of action to reduce this as much as possible, yearly, until 2028.

I will be compiling two surveys to send out to parents. One will be sent home before Easter and one in the new 2025/2026 school year. It will be short so please, if you can, take the time to complete these.

In School Display

We have now combined the Eco & Sustainability display with the Garden Club display as they work hand in hand at the school.

We have used our 'spare' green flag as our other will be flying shortly (when the ground allows us to put our new flagpole in place).

Sustainability Meeting with REACh2

I was fortunate enough to be able to speak at the January meeting of the REACh2 Sustainability Leads.

I presented a power point that highlighted what could be done, with dedication, in a small school setting.

My power point will be added to the school website so if you would like to view it you may.

And Finally

Have a wonderful half term break.

Mrs Garrod-Spall
&
The Eco Committee.
