Sustainability at MPA

This half term we have been looking at the first of our new schemes to cut our Carbon Footprint. We have introduced 'Your score on the door' in our classrooms. This is very similar to what you see on food shops. We will look at classes each week and they will get a star score on their door to show how Eco friendly their room is – for example are lights being switched off in empty rooms, ensure taps are not left dripping, rubbish is in the correct bins etc. We have made lots of stars as we are confident at our school we will have high scores!

Surveys

Unfortunately, we haven't yet had time to compile our parent surveys – we will be straight on this after the Easter break!

Green Flag Scheme

It is getting close to the month of May when we have to submit our Green Flag application. If any child has completed anything Eco at home or you have been informed of things by Eco members or other pupils, please can you let me know by email via the school office. Any information like this can be included and will help our scores!

Outdoor Learning Area

As part of our Sustainability Plan, we hope to install an outdoor learning area when we work on the field re-development. Are there any parents who would be able to help in supplying materials needed or can offer their carpentry skills to build this for us? If so, please do get in touch so we can add this to our plans. Below is what

we are hoping to achieve – this will be a super place for children in all years to work outside even if its raining!

And Finally

We hope that you have a wonderful Easter break. Please recycle all of that Easter Egg foil!

Mrs Garrod-Spall
